The following suggestions are made by Mr. Mahomed Usman in his report re: the Indigenous Hospl, mysore:—

(1) The idea of locating the Indigenous Hospl & the Ayurvedic College in different Buildings should be kept in view and accomplished as soon as funds permit.

(2) The pay of the Compounder of the Tumkur Branch should be raised from Rs 10 to Rs 15

(3) The Karnatic Branch has now 3 peons on Rs 6 each & the Tumkur Branch 3 peons (2 on Rs 6 each & 1 on Rs 5/). Both the Branches should have 3 peons on Rs 7 each.

(4) For making a Comparison and judging the efficacy of the different modes of treatment, a register should be kept noting the cases of malignant diseases, the method of treatment adopted, the Cost thereof

General and Revenue Secretariat. | Ind. File No. 11 of 1914-5

Serial No.

of the patient from day to day and other useful particulars.

(5) The System of calling for tenders for the Supply of herbs, roots &c required for the preparation of medicines may be adopted. If the Hospl is located in a building with Spacious Compound, rare varieties of herbs can be grown there under proper Conditions

(6) To Secure the object of indigenous treatment the following alternative proposals are subtd.

(i) To establish an institute of Comparative Study of medicine; it Should have three branches - allopathic, Karnatick & Unani - all located in the Same Compound. For details vide para 14 of the report

(ii) To get Competent Sub Asst Surgeons trained in well-known forms of native Caviraj & Hakims like Sen & Co in Calcutta & Delhi for a Couple of years and employ them in Indigenous Hospitals

(iii) To ~~get~~ get Students trained only under well known Caviraj & Hakims without any English Subjects.

4 The Senior Surgeon also ~~Suggest~~ favors Suggestion no: 4 Supra and adds that the Supt ought to be required to Submit annually a report showing the results achieved by each

Serial No.

Hospital to devote at least two hours in the morning for examining patients and prescribing for them.

25) Adm-39 28.10.15 I do not think it is.

26) If there are any other specific points requiring immediate orders, they may be noted upon.

27) As regards the general questions raised, they may be considered along with the Scheme of Hobli Doctors recently submitted by Mr Chakravarthi and Dasara Supplemental Subject No. 2 or 3 of 1915.

28) Letter no: 176 of 10.1.16 from the President of the Mysore city Ml Council. 4.1.16

95 States with refee to item no: 11 of Sl: 89, that when the new buildings for the General Hospl, Mysore are Completed, it may be found Convenient to provide accommodation for 12 beds of the Indigenous Hospl, Mysore.

29) There are no points in respect of which immediate achai is necessary in as much as the President of the Ml Council, Mysore city, has stated that Separate Communs will be addressed in respect of each of the Suggestions referred to in Sl: 82

NOTE—Contn. sheet.

GPB—25,000—30-4-15

Serial No.

one Such Communication has been now made in Sl: 95 but no further action seems necessary in regard to it till the new buildings for the General Hospl, Mysore are Completed.

Say that a further report will be awaited. A.

30) The one thing that has to be done at present is ~~perhaps~~ to refer the file to Branch VII for taking note of the Senior Surgeon's Suggestions Contained in paragraph 3 of Sl:-90 re: Ayurvedic College

Yes; after issue of draft. B.

31) Another point for consideration is who should issue the order referred to in paragraph 24 of the notes Supra ~~or whether this~~ The order has to be issued by either the President of the Mysore City Mpl Council or the District Medl Officer, Mysore, according as the one or the other is ordered to be treated as the Officer Controlling the Indigenous Hospl, Mysore, for administrative purposes. In this Connection reference is invited to G.O. No: 2081-3 / 1879-92 dated 3.12.03 which placed the Indigenous Hospl under the Supervision of the then Civil Surgeon of the Mysore District.

I think the G.O. posting Mr Venkata Rao to the Hospital & College specifies the authority to whom he is subordinate. Verify.

Office of Senior Surgeon, Mysore Govt.

Dated, Bangalore, 19th January 1915.

Med. 11-14 - Sl. 38

From

Rao Bahadur T. V. Arumugum Mudaliar, Esq., M. B., C. M.,
Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

D. N. Narasinga Rao, Esquire, B.A., B.L.,
Offg. Secretary to the Government of
H. H. the Maharaja of Mysore,
Gen. and Rev. Deptts Bangalore.

Sir,

In forwarding herewith copy of the report of inspection of the Indigenous Hospital and Ayurvedic College in the Mysore City, conducted by Mr. Md. Usmon, District Medical Officer, Mysore, as required by Government Order No. 12444-5 Med. 50-12-14 dated 11-6-1914, I have the honor to invite the attention of Government to the following salient points dealt with in the report for such orders as they may be pleased to pass.

2. Mere theoretical and rudimentary knowledge of subjects like Physiology, Anatomy, Chemistry & Surgery will be of little use to the students of the "College" without practical demonstrations and lessons.

3. It seems to me necessary that the students should be made to attend the dispensary and learn practical work- such as diagnosis of cases, preparation & compounding of medicines.

4. It is also necessary that proper registers should be maintained showing the results of treatment of the various diseases by the Ayurvedic and the Unani systems and from such registers the Superintendent ought to be made to submit annually a report showing the results achieved by each of the methods in the treatment

of

From

The Senior Surgeon,

Mysore Govt., Bangalore.

To

The Secretary

to the Govt. of Mysore,

Genl & Rev Deptt.

Bangalore.

Dated 19-1-1915.

Encls. One.

Subject.

Forwarding a copy of the inspection report of the Indigenous Hospital and the Ayurvedic College in the Mysore City by the District Medical officer with the Senior Surgeon's opinion.

of the various diseases. If such record had been maintained from the date of opening of the institution, there would have been ample authoritative information to guide us either for the continuance and improvement of these dispensaries or for their abolition.

5. To facilitate the maintenance of accurate information about the results of important cases treated under the two systems, viz,- Ayurvedic & Unani, which is necessary for their comparison with the western system of treatment, and also to afford practical training to the students of the Ayurvedic College, I would suggest the opening of two wards of 15 or 20 beds each, one for the Ayurvedic and the other for the Unani Dispensary. The necessary accommodation can, I think, be found ~~from~~ in some of the existing buildings of the General Hospital, which will probably be dismantled after the completion of the new hospital building now in the course of construction. The locality is not very far from the Ayurvedic College to cause any inconvenience.

I have the honor to be,

Sir,

Your most obedient servant,

Senior Surgeon.

Encl. to G.O. No. 38

REPORT OF THE INSPECTION OF THE

KARNATIC AND UNANI DISPENSARIES IN MYSORE CITY

--ooOoo--

1. The Karnatic and Unani Dispensaries in the City of Mysore were inspected by me on 26-8-1914. They were started on 28-7-92 with the object of encouraging and improving the indigenous method of treatment and diseases. An Ayurvedic School - it is a misnomer to call it a College - is attched to the Karnatic Dispensary alone. Mr. S.Venkoba Rao is incharge of the Karnatic Dispensary and School since 3-3-13 and Mr. Sayed Mustafa is incharge of the Unani Hospital since 25-8-00.

2. Both the Hospitalsand the School are located in the front portion of the market building. The accommodation & the sanitary condition of the surroundings leave much to be desired and I think the idea of locating them in seperate buildings in the open compound should be kept in view & accomplished as soon as funds permit, if these institutions are to continue in the present form.

3. The staff given to each of the dispensaries is given below.

Designation	Pay	Designation		Pay
Mr. Venkoba Rao	190 + 40	Mr. S.Mustafa		40 + 20
Assistant	15/-	Assistant		15/-
Compounder	15/-	Compounder		10/-
Peons 3	6/- each	Peons 3	2 1	6/-) 5/-)

While the nature and volume of work done by the Compounder and peons is the same in both the institutions and if anything more in the Unani Dispensary on account of higher average daily attendance, it is difficult to understand the difference in pay. The scale of pay for these compounders was fixed so long ago as 8-7-07 considering the high prices now ruling the pay of the compounders and peons in both the Hospitals should I think be raised. I would suggest that each institution should have three peons on Rs.7/- each and that

the

the pay of the compounder of the Unani Hospital also should be raised to Rs.15/-.

4. The marginally noted registers are maintained in both the dispensaries and they call for no remarks. They were found to be fairly well kept. The contingent allotment is Rs.50/- per month to each of the institutions. The amount is mostly spent in the purchase of country drugs.

1. Out-patients Register
2. From Register
3. To "
4. Abstract Contingent Register
5. Detailed " "
6. Acquittance Roll
7. Absentees Register
8. Monthly Return
9. Annual "
10. Service Registers
11. Tappal Book
12. Certificate Book
13. Indent Book
14. Visitors Book.

5. Both the dispensaries are kept open from 7 to 11 A.M and 4 to 6-30 P.M. Out-door medical relief alone is given and surgical cases are not attended to in either of the Hospitals.

6. The average daily attendance in the Karnatic & Unani Hospitals is 153 and 165.44 respectively. The following table shows the classification of patients treated in a year according to caste and sex:-

Caste	Karnatic	Unani
Europeans	"	"
Eurasians	15	5
Hindus	20004	17920
Mohamadans	4236	11923
Other Castes	9164	5247
Native Christians	2588	1382
Toatl	36007	36477

Sex	Karnatic	Unani
Men	13898	15073
Women	10379	7651
Children	11730	13753
Total	36007	36477

Taking the population of the Mysore City into consideration the attendance cannot be said to be very striking. Some of the Government branch dispensaries in the City shows an average daily attendance ranging from 150 to 350. It cannot be said that these institutions have acquired a wider popularity

popularity than the Government dispensaries.

7. All kinds of diseases are treated in these dispensaries. But the most common diseases treated are such ordinary complaints as Fever, Dysentery, Bronchitis, Dyspepsia, Debility, Cases of Consumption, Diabetes, Dropsy, etc., are also treated. It is not possible to say how far in these cases cures were effected by the indigenous method of treatement. No specific instances in which cures were effected were brought to my notice. I think a special register ought to be kept noting the cases of malignant diseases, the method of treatement adopted, the condition of the patient found day by day and giving all other particulars necessary for making a comparision and judging the efficacy of the different modes of treatment.

8. The drugs are purchased in the local bazar & medicines are prepared in the dispensaries. Theefficacy of the medicine administered depend to a great extent on the purity and maturity of the herbs, roots etc., used in the preparation. There is no guarantee that the drugs sold in the local bazar satisfy these conditions. To give a fair trial to the indigenous method of treatment it is necessary to procure the best & purest supply of drugs. I think, the system of calling for tenders may be adopted with advantage. If as suggested above, these Hospitals are located in spacious compounds, rare varities of the herbs can be grown there under proper conditions and the method of curing attended to.

9. The Karnatic dispensary alone has a School attached to it. This was opened in 1909. Mr. S.Venkoba Rao is incharge of it. He has two assistants - one on Rs.25/- and another on Rs.20/- and two peons - one on Rs.8 and another on Rs.7/- to assist him in the work.

10. There are four classes consisting of 1st year, 2nd year, 3rd year and 4th year students. There were no students in the 2nd year class. In the 1st year class there were 10 students and 4 each in the 3rd and 4th year classes.

11. All tre 18 students belong to the brahmin community. Of these, 4 alone come from the family of hereditary native pandidts. Their ages range between 20 & 25, not having any previous acquaintance with the subject, their avergge age appears to be rather high. An ordinary acquaintance with kannada, a knowledge of sanscrit upto the "Kavya" standard and of English upto the Matriculation standard is required for the candidates willing to join the institution.

12. The school hours are from 2 to 5 P.M. daily. They are taught Elementary Anatomy, Phisiology, Hygiene, Materia Medica, Chemistry, Midwifery. Medicine, Surgery & Ambulance. The School is not furnished with a laboratory surgical instruments and Pathological specimen. The teaching of the subjects which is confined now only to theory cannot be considered satisfactory without practical demonstrations.

13. I examined the students in some subjects, I regret I cannot say that the result was satisfactory. These students have not the advantage of the hereditary instincts, long training and experience of the native pandidts and hakims of established reputation. The instruction that is imparted to them in Anatomy, Midwifery and allied subjects is neither full nor practised and accurate with them. With smattering knowledge they are let loose on society and are of danger. To secure the object of improving the indigenous treatment, I submit for consideration some alternative proposals.

14. The first would be the establishment of an institute of comparative study of medicine. A Hospital Should be located in a thickly populated and central part of the City. These will have three branches, the Aleopathic, Karnatic and Unani; all these to be located in the same compound, so that patients resorting to them may select treatment in any branch they like. Some diseases will be treated in the different branches according to the various systems and thus there will be an opportu-

nity

opportunity to judge of the comparative efficacy of the different modes of treatment. Sub Assistant Surgeons, local Native Pandits and Hakims of established reputation will be appointed to each of the branches. These will follow their own method of treatment without any restriction. All these will be under the control of a Competant Assistant Surgeon whose duty it will be to watch the different modes of treatment and ther comparative efficacy. These Sub Assistant Surgeons, Hakims, Pandits and Assistant Surgeon will meet periodically and discuss the general effect of drugs and modes of treatment and will publish the result of their labours from time to time. Adopting this system of observation and trial we would be able to find out what is best in the indigenous system of treatment and may freely adopt it. It is not merely we want Pandits and Hakims but that we want also what is best in the system for adoption. If this proposal is accepted the time may come when there would be no need to have separate indigenous Hospitals at all.

15. If this does not meet with approval, I would suggest that competant Sub Assistant Surgeons with good knowldge of Sanscrit or Persian or such of them who have an aptitude for Karnatic and Unani treatment, no sooner they pass out of the Medical College, be sent out for training under well known firms of Native Pandits and Hakims like Sen & Co etc., in Calcutta and Delhi for a couple of years. After receiving proper training they will be employed in Indigenous Hospitals. These men having sound Scientific training will enable them more readily to find out the defects of the indigenous system and their diagnosis will be more accurate and combined method of their treatment will be much more rational.

16. If neither of these suggestions are acceptable I would prefer students to be trained solely under able and well known Pandits and Hakims without any English subjects. They will at least know our system instead of having smattering knowledge in the different system without the capacity to combine the two. The present system is indefensible on any ground

and

and is not a safe one.

I have submitted these proposals, as the idea of a necessity for some radical change forced itself on my mind during the inspection of the Hospital.

Sd/- Md. Usman

Distt. Medical Officer - Mysore.

Secretary to the Govt. of Mysore,
General & Revenue Department.
Through the Deputy Commissioner, Mysore District.

Sir,

With reference to your letter No.6499/Med. 11-14-54, dated the 22nd February 1915, in the matter of submitting - specific proposals with reference to the suggestions made by the Senior Surgeon regarding the Indigenous Hospital Mysore, I have the honour to state that the Municipal Council before whom the question was placed, appointed a Committee consisting of Rao Bahadur: Mr. M.C.Rangaiengar, B.A., Mr. Amble Annian Pandit, Mr. Lakshmanachar, the District Medical Officer and myself, to inspect the Hospital and submit a report (Vide Resolution No. 2 dated 1st April 1915 copy of which is herewith enclosed).

2. The District Medical Officer however excused himself by saying that he had already given his views in the matter and it was for the Municipality to formulate theirs.

3. The members of the Committee have after great - deliberation submitted a report copy of which is herewith enclosed for information. They recommend (1) that arrangements should be made for the treatment of the inpatients of the Hospital (2) that the Indigenous Hospitals should be in-charge of (i)

GBPM—9-9-1914—300.

(i) men who after passing the Sub-Assistant Surgeons' Test in any of the recognised medical colleges and conversant with sanscrit or Urdu, as the case may be, have undergone a sufficient-ently long course of training under competent and experienced Pandits or Hakims within or outside the State. (ii) men who belong to the family of Pandits or Hakims or have received a course of training in the local Ayurvedic College and are trained under competent and experienced Pandits or Hakims for a sufficiently long period of time, provided they have also studied Anatomy and Physiology and have attended a sufficient number of dissections, (3) that the pay of the Compounders and peons be raised to Rs. 15 and 7 respectively, (4) that no surgical operations should be permitted to be undertaken in these Dispensaries, (5) that a garden for growing herbs and plants required for medicinal purposes be opened and maintained and (6) that the contingent grant of the Unani Dispensary be raised from Rs. 40 to Rs. 50.)

4. The system of calling tenders as recommended by the Mohamed Usman [redacted], does not however appear to be practicable as the quantity of drugs purchased is very small.

5. The Head-Pandit is not taking part in examining patients and prescribing to them directly. The Assistant Pandit is doing all this work now. Messrs: Amble Annian Pandit and Gundlapandit Lakshmanachar jointly suggest that, in order to make this institution popular and useful, it is necessary that the Head-Pandit should also take part and work with the Assistant Pandit.

6. They also suggest that the Dispensary should not confine itself to the treatment of only ordinary cases of fever etc., but also have medicines required for the treatment of paralysis, Dropsy and other complicated diseases.

7. The Municipal Council have approved the above recommendations in full in their meeting held on the 29th May 1915. A copy of their resolution is herewith enclosed for your information.

8. I, therefore, request you to be so good as to place the same before Government and obtain their kind orders.

I have the honour to be,

Sir,

Y o u m most obedient servant,

D Krishnama Rao

President.

2. N. Setwaji Rao, Esq.
3. Mahomed Jaffer Sahib, Esq.
4. Jahgirdar Madappa, Esq.
5. A. Subbanna, Esq.

Subjects.

I. Question of making the Baramarga Establishment permanent.

Withdrawn.

II. Letter No. 6499—Med. 11-14-54, dated 22nd February 1915, from the Secretary, General and Revenue Departments, calling for specific proposals regarding the Indigenous Hospital, Mysore.

Resolved that a Committee consisting of the following members be appointed to examine the question after inspecting the dispensary and report.

Rao Bahadur Mr. M. C. Rangaiengar, B.A., Dr. A. K. Pani, D P.H., etc., Mr. Amble Anniah Pandit, the District Medical Officer, the President and Gundal Pandit Mr. Lakshmanachar.

III. Letter No. 9683, dated 11—12th March 1915, from the Deputy Commissioner, Mysore, requesting to forward the list of members elected to the Representative Assembly from the Municipal Council.

Resolved that the following members be elected and the list be forwarded :—

Messrs. Rao Bahadur M. C. Rangaiengar, M. Venkatakrishniah, H. Gulliford and Amble Anniah Pandit.

IV. Health Officer's No. 470, dated 16th February 1915, regarding the grant of an allowance to Hakim Moulvi Mohammed Khasim Ansari.

Withdrawn.

V. Docket No. 1104, dated 5th March 1915, from the Municipal Engineer, submitting for sanction an estimate amounting to Rs. 1,200 for removing silt from Subbarayankere kodi channel.

Deferred for inspection.

VI. Vice-President's memo suggesting certain modifications to Rule 24 of the Octroi Rules.

Resolved that the amendment be generally approved and notified.

VII. Municipal Engineer's memo No. 1116, dated 8th March 1915, recommending increase of pay to the watchman of the avenue trees on Chamundi Hill from Rs. 3 to 5.

Resolved that increase of pay to Kalachikka be passep for one year, *i.e.*, up to end of 1915-16.

VIII. Memo No. 184, dated 17th March 1915, from the Superintendent, Indigenous Hospital, recommending that the contingent grant of the Unani Dispensary be raised from Rs. 40 to 60.

Resolved that the question be referred to the Committee formed under proposition No. II.

IX. School Committee's recommendation to request Government to transfer secondary classes of Krishnaraj Balika Patasala and Lakshmipuram Boys' School to the Educational Department, or to give an increase of Rs. 5 to each of the School Masters.

Withdrawn.

X. School Committee's recommendation to increase the rent of the Krishnaraj Mohalla Zenana School by Rs. 4.

Resolved that the additional rent of Rs. 3 be sanctioned.

XI. School Committee's Resolution No. (XII) that the Municipal Council should have power to incur expenditure within budget grant on education without the previous sanction of Government.

Resolved that the proposal be approved and submitted to Government for sanction.

XII. Letter No. 978, dated 2nd March 1915, from the Chairman, Improvement Trust Board, forwarding for opinion a copy of Assistant Engineer's letter regarding the maintenance of the sewage pipe lines.

Resolved that a Sub-Committee consisting of Rao Bahadur Mr. M. C. Rangaiengar, the Vice-President and the Health Officer be formed to investigate the question and report.

XIII. Health Committee's resolution recording and submitting an estimate regarding departmental conservancy.

Deferred.

XIV. Rao Bahadur Mr. M. C. Rangaiengar's proposals regarding :

1. The formation of vigilence committee for each mohalla.
2. The maintenance of a register of all roads and lanes in the City.
3. Improvement in the method of disposing of applications for building licenses.
4. Submission of a monthly statement of prosecutions by the Health Officer to the Managing Committee.
5. Planting and growing of avenue trees by the Trust Board in areas under their operations.

1. Deferred.
2. Approved.
3. Resolved that a Sub-Committee be formed consisting of the President, the Vice-President, the Health Officer, Mr. Amble Anniah Pandit, Mr. Ranga Iyengar and Mr. N. Srikantaiya who will investigate the question and submit their suggestions.
4. Approved.
5. Resolved that the question be referred to the Trust Board for necessary action being taken.

XV. Health Committee's recommendation for the permanent entertainment of a watchman for Jalpuri slaughterhouse.

Resolved that the recommendation be approved and recommended to Government for sanction.

XVI. Health Committee's proposal to appoint a D. P. W. Sub-Overseer, temporarily, for closing cess pits and constructing daily conservable latrines in their places.

Resolved that a temporary mestri on a pay not exceeding Rs. 20 per mensem be appointed for three months.

XVII. Managing Committee's resolution regarding the investment of the Municipal Funds in the Bank of Mysore.

Deferred.

XVIII. Formation of a Sub-Committee to dispose of objections relating to the revision of assessment in the City.

Resolved that the Managing Committee may appoint Sub-Committees for the purpose.

XIX. Hand-book of Mysore with the suggestions of the Sub-Committee.

Resolved that the suggestions be approved and that the hand-book be got printed.

XX. Correspondence ending with Health Officer's memo No. 28, dated 6th March 1915, in the matter of permitting Mr. Madiah to work his rice-mill in Lakshmipuram by electric motor.

Resolved that the mill be permitted.

XXI. Correspondence ending with No. 178, dated 3rd March 1915, from the Assistant Superintendent of Industries, in the matter of granting permission to Mr. Junjappa to instal a rice-mill in Nazarbad road.

Resolved that the mill be permitted.

T. LAKSHMANA RAO,
President.

Proceedings of the Sub-Committee appointed for reporting on the suggestions of the Senior Surgeon regarding the Indigenous Hospitals met on 26th May 1915.

.....

Present.

Mr.T.G.Lukshmana Rao, L.C.E.,(Chairman).

Messrs: Rao Bahadur:M.C.Rangaiengar,B.A.,
Amble Anniah Pandit and
Mr.Gundel Pandit Lakshmanachar.,

.....

I. Arrangements for in-patents either in the General Hospital as suggested by the Senior Surgeon or in a separate building as suggested by the District Medical Officer may be made. Full registers showing results of treatment, the history of each case can then be maintained.

II. The Indigenous Hospitals should be in-charge of (i) men who after passing the Sub-Assistant Surgeons Test in any of the recognised medical colleges and conversant with sanscrit or Urdu, as the case may be, have undergone a sufficiently long course of training under competent and experienced Pandits or Hakims with-in or outside the State. (ii) Men who belong to family of Pandits or Hakims or have received a course of training in the local Ayurvedic College and are trained under competent and experienced Pandits or Hakims for a sufficiently long period of time provided they have also studied Anatomy and Physiology and have attended a sufficient number of dissections.

III. A Herbery of medicinal plants should be opened at-once and maintained in efficient condition.

IV. The pay of the Compounders in each of the two dispensaries should be the same viz. Rs. 15/-. Peons' pay may also be the same in both the dispensaries and raised to Rs. 7/-.

V. The system of calling for tenders for the purchase of drugs does not seem to be practicable as the quantity of drugs purchased is too small.

VI. No surgical operations should be permitted to be taken in these Dispensaries.

VII. The attendance seems to be quite satisfactory

VIII. The Dispensaries are now located in the most convenient part and thickly populated portion of the City.

IX. That the contingencies of the Unani Dispensary be raised from Rs. 40/ - to Rs. 50.

Office of Senior Surgeon, Mysore Govt.

Dated, Bangalore, Aug. 20 1915 191

Medical 11-14-90

From

Rao Bahadur T. V. Arumugum Mudaliar, Esq., M. B., C. M.,
Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

The Secretary to the Government of
H. H. the Maharaja of Mysore,
General Deptt., Bangalore.

Sir,

With reference to your letter No. 1367/Med.11-14-88 dated 14-8-1915, calling for my opinion on the suggestions contained in para 3 of the Mysore City Municipal President's letter No. 242 dated 15th June 1915, on the subject of the charge of Native Vaidyasalas and Unani dispensaries in Mysore, I have the honor to state that there appears to be no objection to the men of the 1st kind being placed in charge of these indigenous medical institutions, viz,- men, who after obtaining a Sub Assistant Surgeon's qualification in a recognised Medical School, shall have undergone a sufficiently long course of training under competent and experienced Vaidyans or Hakims.

2. But I am not in a position to recommend the 2nd class of men referred to in the extract, to hold the charge of Vaidyasalas or Unani Dispensaries with safety. It may not be difficult for a person who has undergone a course of instruction under a Pandit or Hakim, or in an institution like the local Ayurvedic College, to obtain a certificate of his having studied anatomy and physiology and attended a sufficient number of dissections. I know of no such Ayurvedic or Unani medical

institution

institution, where Anatomy and Physiology and even clinics are taught in a practical way and sufficiently well. Facilities for efficient practical instruction in these subjects exist only in Government Medical Schools, where theoretical lectures and hospital practice are combined.

3. As regards the question referred to in para 2 of your letter, I beg to state that some of the drawbacks in the present system of teaching in the Mysore Ayurvedic College and the lines of improvement have been already indicated in my letter No. 299 dated 19th January 1915. I may add here that if the teaching in the Ayurvedic College should be efficient enough to enable candidates passed out from the institution to hold charge of Vaidya-salas with safety, it should be organised and conducted on lines similar to the Medical Schools and Colleges established by the British Indian Administrations for teaching Western Medical Science. The professors and lecturers must be persons who have had regular training in Ayurvedic and Unani system of medicine and surgery and who hold recognised diplomas therein. The scheme should include practical demonstrations and lectures in anatomy and physiology and clinical teaching. The students ought to be made to work with the lecturers in the dis-pensaries in the morning and taught to diagnose cases and prepare and prescribe medicines, and to attend to theo-retical lectures in the afternoons.

I have the honor to be,

Sir,

Your most obedient servant,

D V Ramaswamy

Senior Surgeon.

From

T.G.Lukshmana Rao, Esquire., L.C.E.,
President, City Municipal Council,
Mysore.

To

D.M.Narasinga Rao, Esquire., B.A.,B.L.,
Secretary to the Govt. of Mysore,
General *Department.*

SIR,

With reference to para 2 of your letter No.1368/ Med. 11-14-89, dated the 14th August 1915, I have the honor to state (1) that there is no Head-Pandit at present in the Indigenous Hospital. The Superintendent Mr. B.Venkoba Rao informs me that, besides exercising a general supervision over the Karnatic and Unani Hospitals , he examines and prescribes for the patients resorting to the Hospital, - supervises the preparation of medicines, checks accounts and attends to correspondence and returns of the Hospital . Messrs: Amble' Anniah Pandit and Gundlapandit Lakshmanachar suggest that he should devote more time for the examination of patients and in prescribing for them. To give effect to their suggestion, I think it may specifically be laid -down that the Superintendent should devote at least two hours in the morning for the above work.

(2) As regards your second query, it is ascertai -ed that not only ordinary cases but also complicated cases are treated in the Hospital, and that patients who are unable to go to the Hospital are examined and treated in their own houses, if required, and that costly and special medicines are prepared and given to those who could afford to pay the cost. The Superintendent further states that cases

Bangalore.

SIR,

With reference to item No. 2 in your letter No. 1368/Med 11-14-89, dated the 14th August 1915 in the matter of arrangements to be made for the treatment of in-patients in the Indigenous Hospital, Mysore, I have the honour to report that in the building where the Hospital is located at present there is no accomodation nor is it possible to provide any therein. When the new General Hospital Buildings are completed it may be found convenient to provide accomodation for 12 beds for this Hospital.

2. The recurring cost for each bed is said to be Rs. 10/- per mensem and the initial charges about Rs. 100/- . Calculated at this rate the total cost both ~~with~~ recurring and initial comes to Rs. 120/- and Rs.1,200/- respectively.

3. When suitable accomodation for the opening of the inpatient ward is secured, the source from which the above cost is to be met will be pointed-out.

I have the honour to be,

The Ayurvedic College, Mysore.

Order No:— 5876-8 mb 11-14-96 dy 11.2.16.

A Committee consisting of the marginally noted members of the Mysore City Municipal Council was appointed by the City Council to consider Mr Isaac's report, to inspect the Indigenous Hospl, Mysore & formulate definite proposals on the report. They have made the following recommendations which have been duly approved by the Council:—

x Rao Bahadur Mr M C. Rangayya
Mr Ambbe Anniah Gowda
" La Lakshmanachar
" T. G. Lakshmana Rao - Vice Pres
" A K Rami - Health Officer.

(i) That arrangements be made for treatment of in-patients in the Hospl.

(ii) That the pay of the Compounders and the peons be raised to Rs 15 & Rs 7 respectively

(iii) ~~That no Surgical operations be undertaken in the Indigenous Hospitals.~~

(iv) That a garden for growing herbs and plants required for medicinal purposes be opened and maintained.

(iv) That the Contingent Grant to the Unani Branch of the Indigenous Hospl be raised from Rs 40 to Rs 50/-

(v) That the Head Pandit of the Hospital should take part in examining the patients
